Empower Your Team, Transform Your Business

In today's global marketplace, clear communication is the cornerstone of success. Imagine a workplace where every employee, regardless of their background, can confidently share ideas, understand safety protocols, and connect with their colleagues and customers. That's the power of effective English language skills.

Our on-site ESL programs are designed to do just that: unlock the full potential of your workforce by providing your employees with the language tools they need to excel. We don't believe in a one-size-fits-all approach. We partner with you to create a custom-tailored program that directly addresses the unique needs and challenges of your business and your industry.

The Path to Progress: How We Work With You

From our very first conversation, our focus is on your goals.

We'll start with a comprehensive consultation to learn about your company culture, your specific sector - whether it's construction, manufacturing, hospitality or retail- and the communication needs of your employees.

Before a single class begins, we'll conduct a thorough needs assessment and pre-tests for all participants. This allows us to understand each individual's current skill level and to create a curriculum that is both challenging and supportive.

Our instructors will even visit your worksite to get a firsthand look at your daily operations. This is crucial for crafting a curriculum that is relevant and immediately applicable to your employees' jobs, incorporating real-world scenarios and company-specific vocabulary.

Throughout the 8-week program, we'll keep a continuous dialogue with your key stakeholders. Our commitment to open communication ensures that we can be responsive to any emerging priorities and guarantee that the program is delivering the best possible results for your business.

Program Details

Our on-site ESL program is a focused, 8-week course designed for a small group setting to maximize individual attention and participation.

Class Size:

- 5 students minimum
- 12 students maximum

Cost Per Student:

\$500

Total Instructional Time:
40 hours

Duration:

- 1 hour per day
- 5 days a week
- 8 weeks

Curriculum:

A customized, industry-specific curriculum that focuses on both workplace and conversational English. Topics can include:

- Giving and following instructions
- Workplace safety language
- Team meetings and collaboration
- Writing professional emails and completing forms
- Understanding and navigating Canadian workplace culture
- Customer service and client interactions

Accountability:

We provide regular class progress reports to ensure you can track your team's development and see a clear return on your investment.

Why Partner With Us?

Our instructors are experienced professionals with a passion for helping adults succeed. They have the expertise to assess individual learning needs and develop a customized curriculum that builds confidence and competence.

Ready to see how confident communication can transform your workplace? Let's connect and design a program that's perfect for your team.
